

This week at Magdalen Road Church we zoomed in on 5 verses from James 4 (v13-17)

James challenged our perspectives and our priorities. The underlying idea was that we get too big and he gets too small...

- For our perspectives, how does James challenge our understanding of (1) the future and (2) ourselves? What difference does each make? How can we make plans more in line with Gods values?
- For our priorities, how does James describe the merchants and their plans?
- Where does this all end up in v17?
- How does this section most apply to you?
