

# Stay Safe

A four week series in 2 Peter

## Questions

1. How are v17-18 in chapter three something of a summary of the letter?
2. Peter appeals to the narrative of the flood to show that God will again judge the world. Why do we sometimes think the God of the NT is different from the God of the OT?
3. Peter invites a self reflection in v11. Why don't we have a think ourselves about that same question. What sort of people ought we be in lives of holy conduct and godliness? ESV.
4. v8-9 paint an incredible picture of history. How does seeing history in this way change the way we think about God and about our time?
5. Peter mentions scripture, or something to that effect, e.g. apostles' teaching, a number of times in this letter. Where are all the references to 'God's word' or 'bible content,' and what does this say about how Peter thinks we can stay safe? Or do v17-18?
