

This Sunday at Magdalen Road Church we finished our sermon series on the Upper Room Discourse.

As expected the physics crowd commented afterwards that centrifugal force does not (apparently) exist...!

However, God's love still has both an attractional (inward) and a propulsion element (outward). Our message is both come and see, as well as go and tell...

- What do you make of Leslie Newbigen's comment that "The best apologetic [argument for] of the Gospel is a church that believes it, lives it, and proclaims it."
- Have a look at John 17v22-24, 13v35. How does our understanding of the Trinity shape our identity and our family life. Why ought there be an inward attractional element to church life?
- "Because God loves he sends" - do you think this is a true statement? Where do we see sending in John's gospel? Consider John 1v6, 3v16, 6v38, 11v42, 17v18 and 14v26. What does it mean that we are sent?
- How can we "do what we love and take Jesus with us"?
